

PROHIBITION CANDIDATE CHEERFUL

MAKES THREE SPEECHES IN EL PASO

Eugene Chafin Says Wilson Will Carry 40 States; Taft Three; Roosevelt Five.

SAYS HE AND DEBS WILL CARRY THE REST

Declares Best Way to Abolish Liquor Traffic Is by Constitutional Amendment.

CHAFIN EPIGRAMS.

Wilson will carry 40 states, Roosevelt five, Taft three and Debs and I the rest.

Liquor is the real cause of the high cost of living.

If Teddy gets more votes than Taft, and I think he will, the Republican party will be too dead to bury.

The Democratic party will get so big over the results of the election that it will break in two.

Stop the manufacture of liquor. That is the only solution of the liquor problem.

Local option and local prohibition is not worth a boot. Stop it by constitutional amendment and it will remain stopped.

Abolish the liquor traffic as we abolished slavery—by constitutional amendment.

It would have done no good for Texas to have gone dry at the last election with governor Colquhoun to enforce the law.

Give us a million votes this time and we will elect a president next time.

I will be 60 tomorrow and as fit as a fiddle, because I never took a drink and have five generations of ancestors who never drank. Guess that is as good a temperance lecture as I can give.

Prohibition of interstate shipments of liquor is the only thing short of a constitutional amendment which will prohibit the sale of liquor.

I have campaigned for 95 days, made 540 speeches and traveled 25,000 miles on nothing stronger than water and have not been sick a day or tired a single night. Guess that is going some.

Eugene W. Chafin, prohibition candidate for president, came in from Colorado, Tex., Thursday morning and gave three rapid fire speeches in El Paso Thursday morning, afternoon and evening.

A big, outstanding man with a healthy, happy manner and a three ply laugh, candidate Chafin is having as much fun out of his race for presidency on the water wagon ticket as a boy at a circus.

Fun, Smiles and Logic.
Back of all his fun and smiles is a lot of hard headed logic which he manages to slip in between laughs with a punch which drives them home. He has devoted his life to the cause which he is now leading. He will be 60 at midnight tonight, "born on Halloween," he says, and he is good for 40 more years of fighting for the cause of the camel and its example. The cartoonists have drawn Chafin as a little chap with a curled-up lip and a stubby mustache. The mustache is there, but the smallness is sadly lacking, for he stands over six feet without a collar and filled a room at the McCoy almost to overflowing with his presence and his prohibition literature, which he presents in the form of a prohibition shower to his callers.

Fifty Years a Temperance Advocate.
Heard in Wisconsin with senator La Follette, whom he calls "Bob," Eugene Chafin has been a good temperance man and an enemy of old man booze for 50 years. He and La Follette belonged to the same Good Templar club at Wisconsin university, and he has been fighting the demon rum since that time. Incidentally he has practiced law in Mishawaka, Ind., and Chicago until the health of his wife caused him to move to Arizona, where he now makes his home at Tucson. Being the oldest candidate for the presidency in the youngest state, the Prohibition leader believes he will get more votes this time than any Prohibition candidate ever polled, and has set his mark at 1,000,000, with the prophecy

Arizona's Presidential Candidate

EUGENE W. CHAFIN

DEMOCRATS OF MEXICO SHORT OF CANNON IN ARMY

Claim Almost Everything in Sight, but Rooseveltians Dispute Them.

REPUBLICANS ALSO MAKE SOME CLAIMS

(By George H. Clements.)

Phoenix, Ariz., Oct. 30.—The state fair has served to bring the politicians of high and low degree of all parties from all parts of the state to Phoenix, with the result that wherever two or three or more men are gathered together, whether on the street, in the lobbies of the hotels, or even on the fair grounds, one may be sure that politics are being discussed. And the discussion of politics is not left alone to the men; the women are deeply interested because they say they have learned that the proposed amendment to the constitution giving the women of Arizona the right to vote at all elections is in danger of being defeated next Tuesday.

The Democrats are charged with secretly working against the amendment and it is also charged that the Royal Arch, the big, powerful association of liquor dealers, is ready to pour a big "alcohol fund" into the state during the last two or three days of the campaign, to defeat universal suffrage, the latter will vote for laws looking to the absolute suppression of liquor traffic in Arizona.

Members of the Arizona division of the Royal Arch deny that the organization is taking any part in the campaign, or spending a dollar to defeat the woman's suffrage amendment. The Democratic leaders deny with much vehemence that they are secretly or otherwise working against the amendment, which will permit the women of Arizona to line up at the ballot box with their husbands, brothers or fathers if they desire to do so.

The Fight in Maricopa.
While the visiting politicians are returning to their homes, as soon as they have seen the fair, and have talked with their state leaders, to look after their own fences in their own hall-wicks, the candidates for presidential electors and for congress are still in the key to the situation and the party carrying it will have a shade the best of it throughout the state and parties now claim it and each is endeavoring to make good the claim.

While Maricopa, being "speck-horned" and "gun-shod," an occasional foray will be made into Pima, Cochise and Gila, all of which are regarded as worth fighting for and to keep the voters on edge until election day.

Democratic Claims.
The Democrats have the situation figured out like this: "They say the Democrats are about 22,000 registered voters in the state and they estimate that about 26,000 votes will be cast. Of these the Democrats should, under normal conditions, cast 13,000; the Republicans 11,000; the Socialists 1,500, and the Prohibition 500. Continuing

COPPER MINE OPENED IN MT. FRANKLIN

A new copper mine has been discovered in the Mt. Franklin area, which is of great importance. For years, mining geologists have predicted that some great mines would eventually be found in that mountain. Even so long ago as 1852 Prof. Hall, the next of American geologists, who accompanied the United States geological survey, in El Paso county. It is about an hour and a half ride by automobile from this city.

The new copper mine is situated 18 miles north of El Paso on the eastern side of the range near the dividing line between Texas and New Mexico. On the southern quarter of section 5, block 51, township 1, Texas & Pacific survey, in El Paso county. It is about an hour and a half ride by automobile from this city.

R. Harper, Judge Harper is secretary and Mr. Harper, who is now down about 20 feet. The entire shaft is in pay ore. The ore is sulphides, mostly of the variety of copper and chrysocolla. Average samples have been submitted to the smelter and it has offered the owners \$10.50 per ton for the ore.

"This is my first mining venture," said Judge Harper, and I am going into this on the advice and judgment of experts who have examined the mine. Recently an expert of the Colorado Fuel & Iron company visited that locality to look at the iron deposit. He stated that the indications were most favorable for the presence of important deposits of copper, silver and gold rather than commercial iron."

Immediately north of this property are some other copper properties just across the line in New Mexico which are in active development, belonging to Mr. Beasley and others.

SHERMAN DIES AT UTICA; WILL BE BURIED SATURDAY

BODY OF VICE PRESIDENT WILL LIE IN STATE AT ONEIDA COUNTY COURTHOUSE.

President Taft, Members of His Cabinet, Senators, Representatives and many Others in Public Life Will Attend the Funeral—The Nation Mourns and Flags Are at Half Mast.

Utica, N. Y., Oct. 31.—With the end in view of obtaining a larger auditorium, the first decision to hold the funeral of vice president James Schoolcraft Sherman, who died at 5:42 o'clock from uremic poison caused by Bright's disease, in the Reformed Dutch church has been abandoned and the first Presbyterian church will be used for that purpose. The service will be held at 2 o'clock Saturday and will be conducted by Dr. Holden, pastor of the Dutch church, and Dr. M. W. Stryker, president of the Hamilton College, of which college Mr. Sherman was an alumnus.

The body of the vice president will lie in state at the Oneida county court house, until Saturday and will be returned to the Sherman residence for funeral services Saturday morning.

He selected his pall bearers before his death. They consist of prominent citizens and intimate friends. President Taft, several cabinet members, 50 senators and many members of the house will attend the funeral.

Flags at Half Mast.
It is mourning today the death of vice president Sherman. Exalted public functionary though he was, he was known to Uticans as "Jim" Sherman. Indeed, in most cases the surname was dropped, and he was known as Sherman.

OTTOMAN TROOPS LEAVE MANY DEAD ON THE FIELD

BATTLE FRONT OF TURKISH ARMY UNDER THE MINISTER OF WAR EXTENDS 31 MILES.

After Three Days' Fighting, the Turks Flee in Disorder to Tcholu to Make a Final Stand Before Constantinople—The Bulgarians May Prevent the Arrival of Forces From Asia Minor.

Sofia, Bulgaria, Oct. 31.—The Bulgarian army has completely routed the main Turkish army under Nazim Pasha. The Turks fled in disorder, leaving many killed and wounded on the field.

The battle, which is regarded as the most important engagement since the beginning of the war, lasted three entire days. It extended along the line from Lule Burgas, eastward to Serrai. The Turkish front was over 31 miles long.

The Ottoman troops retreated to Tcholu, about 211 miles to the south of the positions from which they were driven by the Bulgarians.

The town of Tcholu, where the Turks are expected to make another stand, occupies an important position on the main road and on the railway between Constantinople and Adrianople, at the point the road from the port of Rodosto joins. Unless the Turks hold this place they will be unable to bring any more troops from Asia Minor by way of Rodosto.

POWERS MAY STOP THE BALKAN WAR

European Governments It Is Declared Will Not Permit Occupation of Constantinople by Bulgarians.

London, England, Oct. 31.—Following the defeat of the Turks by the Bulgarians at Lule Burgas, European powers may intervene and put a stop to the war.

In dispatches from Vienna it is asserted that the foreign ministers of the European governments have reached a tentative agreement in this matter and in any event the entry of Bulgarian troops into Constantinople will not be tolerated by the powers. Even Russia is disinclined to permit such an occurrence.

It is also understood in diplomatic quarters in the Austrian capital that the Balkan nations already have made known in an unofficial manner that they are prepared to second intervention by the powers at any moment now.

The eastern wing of the Turkish army at Vika was about 24 battalions strong at first against the Bulgarian troops, but could gain no ground. In consequence of the occupation of Lule Burgas by the Bulgarians the eastern wing of the Turks was withdrawn from Lule Burgas to Vika, now 115 miles across the country from the battle front, which yesterday extended from Lule Burgas to Vika.

The Turkish force is estimated at 200,000 men. The Bulgarian cavalry is pursuing the retreating Turks.

Pear for Christmas.
The Bulgarians claim to have defeated the Turks at Lule Burgas and while the Turks assert that the Bulgarians have been driven back around Vika. Of the fighting in the center so authoritative report has yet been received.

Bulgarians are staking everything on the result of this battle. They have brought up all their available resources to the front, leaving the investment of a fortress at Adrianople which is completely surrounded by their reserves.

The Turkish commanders, too, appear to have brought to Europe all the troops it was possible to withdraw from Asia Minor. A battle is now in progress that regular traffic on the Anatolian railways has been partly restricted.

Gate fears are expressed in regard to the Christian populations of Constantinople, where the news of Turkish defeats is being circulated in spite of the action of the powers is under consideration.

England has ordered a warship to proceed to Saloniki for the protection of British subjects and to observe the action of the powers is under consideration.

TWO MEN CAUGHT IN ARIZONA MINE

One Is Rescued by Wickensburg Miners and Citizens, But the Other Is Still Buried Beneath Cavel.

Wickensburg, Ariz., Oct. 31.—Two men, E. E. Short and Nick McCarver, while exploring an old drift on the 300 foot level of the O'Brien mine, were buried by a cavel Wednesday afternoon.

The alarm was given and the men near Wickensburg hurried to the scene. Short was rescued early this morning and taken out alive, but exhausted. The search for McCarver continues.

The rescue work is slow, because of the nature of the ground, which is very soft and threatens to bury those working to save the entombed miner.

GREEN LEAVES COATED WITH SNOW AT AMARILLO.
Amarillo, Oct. 31.—Heavy snow, Green leaves coated with snow furnished an unusual sight in marfello and all the section of the Texas Panhandle today. The snow did not remain on the ground long, on account of the warmth of the earth.

BRENNAN IS OFFICIALLY NOTIFIED OF HIS RELEASE
St. Louis, Mo., Oct. 31.—Rogers Brennan, who was announced today, received last Tuesday his notice of unconditional release from the St. Louis National league baseball club. Unless one of the other seven National league clubs claims him, he will be a free agent.

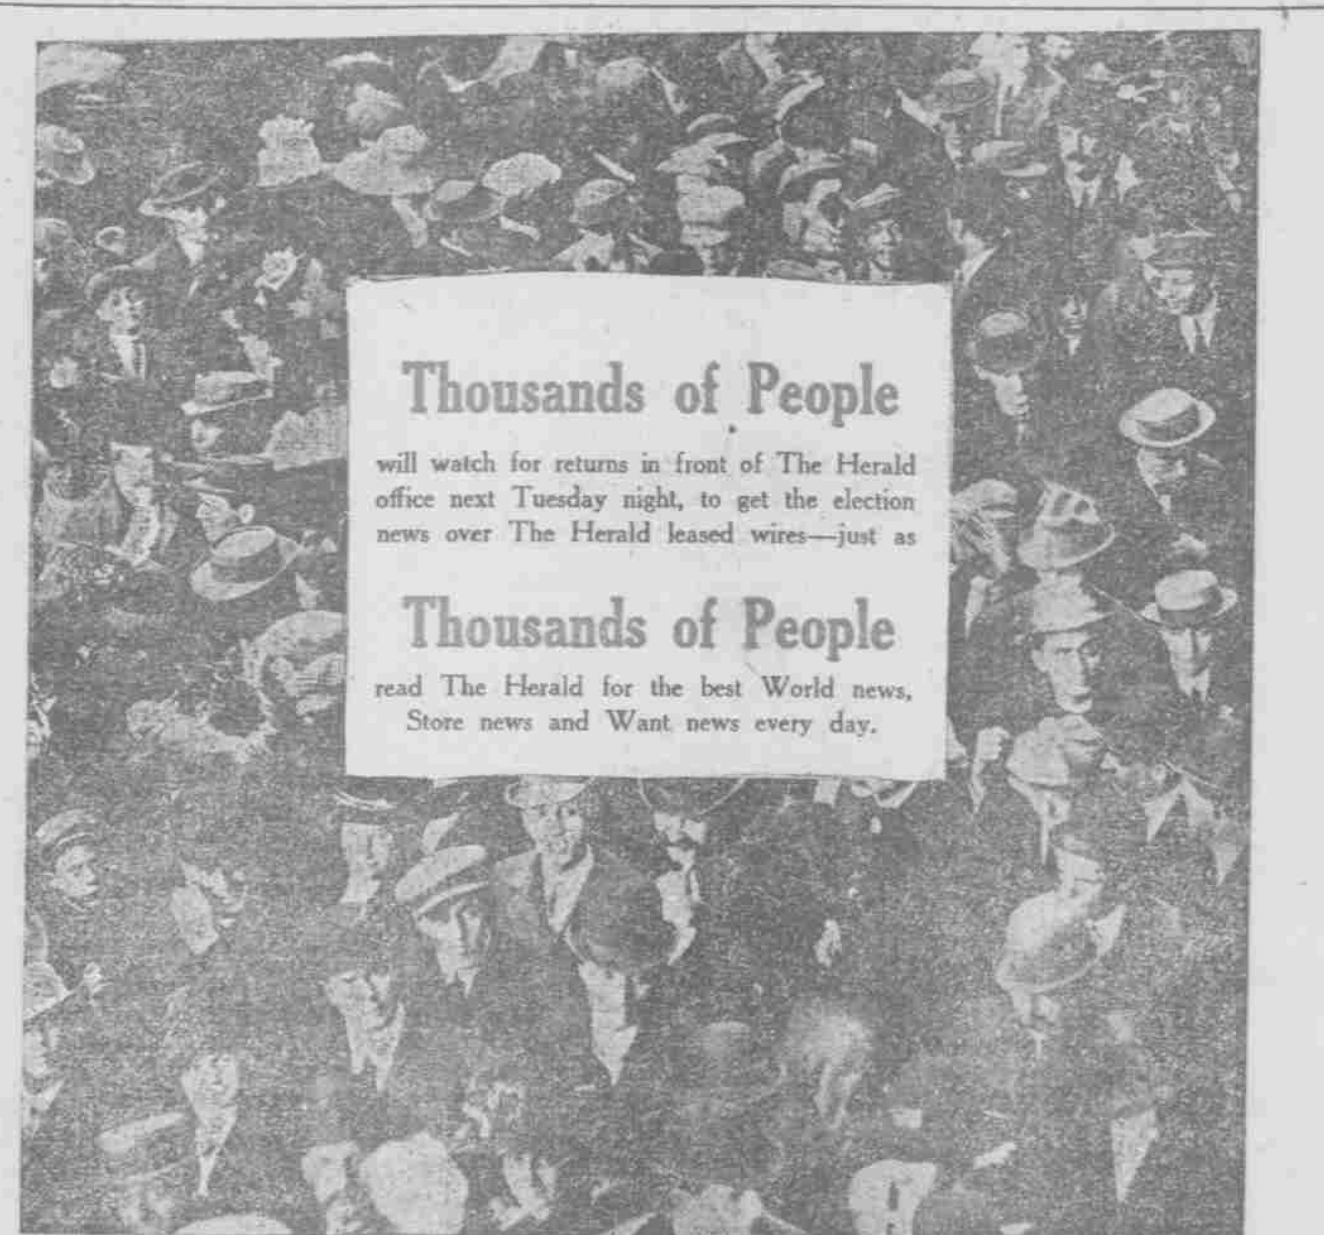

THIRTY VOLCANOES IN ERUPTION AT ONCE.
Sydney, N. S. W., Oct. 31.—Thirty volcanoes are in eruption on the island of Niniguan, in the Tongan group, and many remarkable changes in the physical features of the island have resulted. A large lake in the center of the island has disappeared, two new ones have appeared, and according to reports received here.

TEN MILLIONS FOR ARIZONA GOOD ROADS

Phoenix, Ariz., Oct. 31.—The annual convention of the county boards of supervisors, at which all counties of the state, except Apache, are represented, this morning by unanimous vote recommended to the legislature that a bond issue of \$10,000,000 be authorized for good roads purposes, the proceeds of the sale of the bonds to be apportioned among the counties in proportion to the assessed valuation. The plan is the same as that adopted by New Mexico.

There was no opposition to the convention to the proposition to bond the state for good roads purposes, though there was some debate as to the amount needed. Some favored \$5,000,000, others \$15,000,000, but \$10,000,000 finally was decided upon as a compromise.
